PROJECTS

My Portfolio Website – <https://vivekmittal.co.in>

- A static portfolio website created using ReactJS and Styled-Components

SRM Team Humanoid Website – <https://srmth.in>

- A static website created using HTML5, CSS3 and Vanilla JavaScript.

ReactJS Calculator

- A pretty simple calculator which I created to brush up on my ReactJS basics.

API's

- Created several Restful CRUD API's to get familiar with NodeJS and MongoDB Atlas along with ExpressJS and to implement all those together to create a MERN Stack App.

Color Game – <https://colorgame.gq>

- A web app created using HTML5, CSS3 and Vanilla JavaScript as a part of my course.

SPOTIFY CLONE

- Designed and prototyped a clone of Spotify using Figma.
